

### Hi-Torque Clip

Material Type:..... Stainless Steel  
 Code.....FC-S-407

Hi-Torque clips are made from stainless steel with a natural finish. Our clips are suitable for heavy duty applications where leakage or vibration issues make lesser clips and clamps unsuitable.

Recommended setting Torque - 15 Nm (130 lb.tn)  
 All parts BS304 - EN 1.4301/1.4576

Larger sizes can be accommodated, please contact the sales team.

Standard Clip Range
